## Request for Interpretation - Response July 30, 2013

Request for Interpretation (RFI) dated March 28, 2013, relating to Section 10.2 of ANSI/ALI-ALCTV:2011, Automotive Lifts - Safety Requirements for Construction, Testing and Validation (Technical Issue #TI-13-001)

This document summarizes the official response of the Automotive Lift Institute, Inc. (ALI) to the “Request for Interpretation” relating to the requirements of ANSI/ALI ALCTV, Standard for Automotive Lifts – Safety Requirements for Construction, Testing and Validation (2011 edition), as submitted in March of 2013. The request is paraphrased for clarity.

**Request: Section 10.2, Testing.** The fourth paragraph uses the term “initial loading”. Does “initial loading” refer to the application of proof load or rated load?

**Response:** Proof load.
