## **AUTOMOTIVE LIFT INSTITUTE OFFERS UPDATED SAFETY TIPS**

### **“Safety Tips” Foster Employee Awareness.**

Cortland N.Y. – February 09, 2005 – The Automotive Lift Institute, Inc. (ALI) announces the availability of a new ALI “Safety Tips” placard. This updated Safety placard boasts a new technical appearance designed to enhance visibility and the awareness of the need for automotive lift safety by shop personnel.

The Safety Tips placard is traditionally used as a reminder to automotive service lift operators of the general safety precautions that should be taken to help avoid possible injuries while using an automotive service lift.

The new placard design can now serve to benefit lift manufacturers, risk managers, insurance carriers, vocational instructors, installers, and lift service representatives when presented to lift users and owners as educational safety materials in the course of day to day interactions.

Pre-payment of \$2.00 in U.S. funds, for 3 Safety Tips Cards, may be sent to ALI’s new Headquarters location: ALI, P.O. Box 85, Cortland, NY 13045. Visit ALI’s updated website [www.autolift.org](http://www.autolift.org) to get quantity discounts, or for information on other safety materials and standards sponsored by the lift manufacturers who support ALI’s mission of promoting the safe design, construction, installation and use of automotive lift products.
